How to Measure and find the right size for CHILDREN'S CLOTHING

IMPORTANT: order by size not age.

MEASURE EVERY TIME YOU ORDER...CHILDREN GROW FAST! Before you order, be sure the item you want comes in the size you need: if item description lists sizes in numbers, state the size in numbers when you order. If sizes are listed as "S, M, L" or "A, B, C, D," state the letter size, not the number size.

A. CHEST. Pass tape under armpits, over bottom of shoulder blades at back, and covering fullest part of chest at front. Child should stand normally with arms at sides, wearing simply-cut street clothes.

B. WAIST. For underwear, swimwear: measure at true waistline, over underwear. Hold

tape snug, with one finger between body and tape. For slacks, pants: measure as above, but over shirt, with tape at height at which garment will be worn.

C. HIP AND SEAT. Measure around fullest part of hips, with child wearing simply-cut street clothes.

D. HEIGHT. Stand child against wall in stocking feet. Place piece of stiff paper across head to wall; measure from paper to floor.

E. INSEAM. Take a well-fitting comfortable pair of pants and try them on the child, making sure the waistband is kept at correct position. Remove pants, lay them flat; fold back one leg and measure carefully from crotch seam junction to bottom of cuffs. This measurement is finished inseam length.

Boys' Clothing

Dress shirts, sport shirts, undershirts, pajamas, vests, sweatshirts, and sweaters—take chest measurement (see A above). Then see chart (right). Order size corresponding to chest measurement.

Sport coats, suits, robes, all outerwear—take chest and height measurements (A and D above). Then see chart (right) and order size closest to these measurements.

Underwear shorts and other shorts (walking, boxer, swim), take waist measurement (see B above). Then see chart (right) and order size closest to waist measurement.

To order all slacks and trousers, take waist and inseam measurements (see B and E above). Then see chart (right) and order size corresponding to these measurements.

IN ALL CASES, if child's size falls between two sizes, order the next larger size listed.

Babies', Toddlers', and Preschool Clothing

BABIES' SIZES 0-4

Garments in this range up to size 2 are cut full to allow for diapers. Important measurements are height and weight.

TODDLERS' SIZES 1-4

For boys and girls who still have the shorter legs and rounded contours of infancy. Cut extra-full for diapers.

GIRLS' SIZES 2-6X

For girls who are lengthening out and losing the roundness of infancy. Longer than toddlers', without diaper room.

PRESCHOOL SIZES 2-7

For boys too old for the playpen and too young for school. Styled like "big brother's" clothes, but constructed with the durable features preschoolers require.

Size Ranges: Cut and styling of garments differ from range to range (see descriptions at left). However, the same body measurements apply to

a given size, no matter which range it may be listed in. **IMPORTANT:** size 6x applies only to girls' clothing, and size 7, only to boys' clothing.

How to Measure and find the right size for ADULTS' CLOTHING

1. Have someone take your measurements. It is difficult to measure yourself accurately.
2. Keep tape straight and snug but not tight.
3. For Men's Clothing: have the measurements taken over a comfortable, well-fitting shirt and slacks.

For Women's Clothing: measure over a slip and whatever foundation garments you will wear with the garments you wish to order.

4. Make no allowance, or garment will be too big.
5. Give all measurements requested for the type of garment you buy.
6. Be sure garments you want come in your size.
7. If item description lists a garment's sizes in numbers, state the size in numbers when you order. If sizes are listed as "S,M,L, or XL," be sure to state the "letter size," not the number size.

Men's Clothing

A. CHEST MEASUREMENT. Measure over bottom of shoulder blades at back, bringing tape up under armpits and over fullest part of chest at front.

B. WAIST MEASUREMENT. Place tape at height you wear trousers. Keep one finger between tape and body. Do not wear belt.

C. INSEAM MEASUREMENT. Lay a pair of well-fitting trousers flat on a table with trouser legs creased back and front. Lift pant leg; measure from crotch seam along inseam to length preferred.

TO ORDER DRESS SHIRTS (sold on pages 38 and 39), take these measurements:

Neck Measurement. On a shirt that fits you well, lay collar flat. Measure from center of collar button to far end of collar buttonhole.

Sleeve Measurement. From center back of shirt collar, behind elbow, to far end of cuff.

TO ORDER ALL SLACKS—Take waist and inseam measurements (see B and C at left). Number of inches is your size. *State waist size first, then inseam length when ordering.*

TO ORDER SPORT COATS—See chart below and order length size for your height. State length size as Short, Regular, or Long. Then take chest measurement (see A at left). Number of inches is your size.

Chart to Determine Sport Coat Length

Order length:	If height is:
Short	5' 3" to 5' 6½"
Regular	5' 7" to 5' 11"
Long	5' 11½" to 6' 2½"

Women's Clothing

A. MEASURE BUST—place tape over shoulder blades, under arms and around fullest part of bust.

B. MEASURE WAIST—standing in a relaxed position, place tape around natural waist at narrowest part.

C. MEASURE HIPS—place tape around fullest part of hips—usually about seven inches below waistline.

TO ORDER DRESSES, SUITS, ROBES, ETC.—order the size closest to your waist and hips—and your height if garment is proportioned. (A slight variation in bust measurement will not affect fit.)

MISSES SIZES

Misses: (also "Average" Misses). Height 5 ft. 4 in. to 5 ft. 7 in. (in stocking feet). For the figure of average proportions, this range constitutes the largest fashion selection.

Merchandise in this catalog is mailable unless otherwise indicated in the item description. If your order contains any "not-mailable" items, then the entire order is "not-mailable". If item is described as "semi-mailable," it means merchandise may or may not be mailable—see Chart 1 below. We send not-mailable orders by REA-Express or TRUCK, whichever is better for you.

Ask your postman or postmaster if yours is a 1st-class post office. Then, consult chart 1 below to see if your package is mailable.

*Use "Local Delivery" rates if you live within Milwaukee city limits.

PLEASE NOTE: Items weighing less than 10 lbs., but measuring more than 84 inches in length and girth combined, take 10-lb. rate.

Factory-shipped merchandise: Merchandise is shipped from a factory only when stated in item description—order it in the usual way, but expect an individual shipment with separate shipping charges. You may estimate charges based on mileage from factory to you. Mailable items sent from a factory have charges included in the price.

2 ways to ship not-mailable orders

If your order cannot be mailed, it will be sent to you by TRUCK or REA-Express. We will ship by whichever method provides the faster delivery consistent with economical shipping costs. We will decide which method is better, unless you specify your own preference on the order blank. If your shipment arrives by REA-Express instead of TRUCK, it will be because the cost is actually lower by this method.

Not-mailable cash orders are shipped "Collect." (The shipping charges are collected upon delivery.) Do not send payment for shipping charges with your order. Charges are based on weight, distance, and classification of merchandise. There is a minimum charge for each shipment, which will be the actual charge on most shipments. In most instances you may ship up to about 125 lbs. at the minimum charge. You can build up your order to this weight without paying additional transportation charges.

REA-Express is recommended for shipping certain merchandise which cannot be sent via Parcel Post due to postal restrictions on size, weight, or type of merchandise. Shipments are handled by one company from origin to destination. Charges are determined by the weight of the shipment and the distance to your home.

If you wish to estimate shipping charges

The chart below shows the shipping charge per pound according to the distance between your home and our Milwaukee warehouse. Since these charges are for *all kinds of merchandise*, it will be necessary for you to determine only the total weight of your order and the approximate distance of your home from Milwaukee.

Direct-to-home freight delivery. Not all trucking companies make deliveries to a home address. If you specify TRUCK, and do not have a street address, be sure to give your highway route number and some identifying landmark—so the truck driver can find your home. Post office, rural route, and box number locations alone are not enough. Where direct-to-home delivery is not available, and you wish your order delivered to your home, there is an additional charge.

How to return merchandise

For refunds, exchanges, or damage in transit—also for adjustments on specially guaranteed or warranted merchandise.

IMPORTANT: Each order shipped from Milwaukee includes a "Return or Exchange Form" as part of your invoice, to be filled out in case you need to return a purchase. (If form has been mislaid, ask us for one in a letter mailed to address given below in NOTE.)

SHIPMENTS FROM MILWAUKEE

Damage in Transit

1. If merchandise worth less than \$100 was damaged in the mail, fill out "Return or Exchange Form" and send it to us along with the merchandise.*

2. If merchandise worth more than \$100 was damaged in the mail, it has been insured by us; therefore you must file a claim with your local Post Office. Then fill out the "Return or Exchange Form" (including the insurance claim number) and send it to us along with the merchandise.

3. If merchandise delivered by REA-Express or Truck is damaged on arrival, get an Inspection Report from the driver and have him take the package back. (If you discover the damage after the delivery driver has gone, notify the transportation company; they will come for the package and give you the Inspection Report.)

Send us the Inspection Report, the paid transportation bill, and a copy of your invoice, including the filled-in "Return or Exchange Form."

Regular Exchange or Refund

If you are returning merchandise for any reason other than damage in transit (regardless of how it was shipped or the value of the item), simply fill out the "Return or Exchange Form" and send it to us along with the merchandise.*

Shipping charges on returned merchandise will be refunded.

SHIPMENTS FROM FACTORY

The instructions above do not apply. Simply write to Dept. F explaining your problem; and we will let you know what to do.

(If yours is a CREDIT order, don't bother to figure the sales tax—we'll do it and add the correct amount to your invoice.) In case of late sales tax rate changes, your invoice will be adjusted accordingly. Any overpayment of tax will be promptly refunded. How to Open a Time Payment Account

1. If you now have a Penneys Regular Charge Account, just write your order, fill in your Account Number, and check the "Time Payment Account" box. Then, read and SIGN the Time Payment Account Agreement (3) on the reverse side of the order form. Remember, your first Time Payment Account order must total \$19 or more. Only the merchandise listed above may be purchased on a Time Payment Account. For Regular Charge purchases or Cash purchases please use another order form.

2. If you do NOT have a Regular Charge Account, turn to the reverse side of any order form (pages 220 and 222), and fill out the Credit Application (1); then sign both the Charge Account Agreement (2), and the Time Payment Account Agreement (3). Then write your order on the front of the form and check the box that says, "Time Payment Account." Remember—your first Time Payment order must total \$19 or more. Only the merchandise listed above may be purchased on a Time Payment Account—for other merchandise, use Penneys Regular Charge Account (details on page 216).

NOTE: You can arrange to open an Account by phone—just call your nearest Penneys Catalog Center.

How your Time Payment Account Is Billed:

Each month, when you receive your Time Payment statement make small monthly payments based upon your balance (see "Time Payment Terms Table" at left)—and pay a modest service charge, added each month to the beginning balance.

If you wish, you may pay more than your scheduled payment—or, you may pay the entire balance at any time.

"Add-On" to your account anytime— no minimum purchase required

Either dial your local Penneys Catalog Center (see page 209)—or if you wish, order by mail. Just write up your Time Payment order, and complete the following steps:

1. Fill in your Penneys Account number.
2. Check the Time Payment Account box on the front of the order form.
3. Read and SIGN the Time Payment Account Agreement (3), on the reverse side of the order form.
4. Be sure that all merchandise you "add-on" is eligible to be purchased on your Time Payment Account—see list above. If you wish to make Regular Charge Account (or cash) purchases, simply use another order form.

No Minimum Purchase required when you "Add-On" to your Time Payment Account!

To find your new monthly payment when you "add-on": Simply add the total dollar amount of your "add-on" order to your present unpaid balance. Then check the "Time Payment Terms Table" (at left), and find the new total balance, and the corresponding monthly payment. If the new monthly payment is the same or less than you are now paying, there will be no increase in the monthly amount you will pay.

When you order, fill in your Charge Account Number, check the Regular Charge Account box, and SIGN the short agreement below it.

TIME PAYMENT ACCOUNT?

- IF you are ordering "major" items (such as household goods, tools, sporting goods, etc.) you may want to take longer to pay.

Fill in your Charge Account Number, check the Time Payment Account box, and for ALL your Time Payment purchases, "add-on" or new, sign the Time Payment Account Agreement (3), on the reverse side of the order form.

Cast off for adventure with BOATERIFIC

BOATERIFIC POWER-PROPELLED MODEL BOATS are a new addition to Ideal's great Motorific toys. Each model is created in amazing detail after a different seagoing classic. Colors, chrome, lights, radio and radar masts, pennants and ensigns are strikingly reproduced to resemble the original boat each is modeled after. Toys range from a strictly functional harbor tug to a super luxurious cabin cruiser. Each is powered by a marine version of the powerful Motorific motor that is used in Motorific cars and trucks. (Motor uses 2 "AA" cells—order on p. 172.) Motors are Bondarized® for waterproof operation. Hull interiors and batteries are protected against flooding by an exclusive automatic bailing process similar to the one in real boats—water is pumped out through a port at the back of the craft. Boats are 12 in. long.
